SOFTWARE DEVELOPER

Passionate and results-driven Software Engineer with 6+ years of experience in full-stack web development, UI/UX design, and WordPress customization. Skilled in building scalable, high-performance web applications using modern front-end and back-end technologies. Adept at collaborating with teams to create innovative solutions that enhance user experience, optimize system performance, and drive business growth.

AREAS OF EXPERTISE

- **Technical Skills:** React.js, Vue.js, JavaScript, HTML, CSS, TailwindCSS, Node.js, Express.js, PHP, Laravel, PostgreSQL, MySQL, MongoDB, Git, Postman, Docker, Jest, AWS, RESTful APIs, Figma, Elementor, Divi, Custom PHP Templates
- **Soft Skills:** Agile Development | Problem-Solving | Code Optimization | Collaboration | Performance Tuning

PROFESSIONAL EXPERIENCE

411 Locals Software Engineer

July 2022 - Present

- Developed and maintained scalable web applications, ensuring optimal performance, security, and user experience. Designed and built front-end components using React.js and implemented RESTful APIs for seamless backend communication.
- Refactored backend APIs to enhance efficiency, reducing server response time by 30% and optimizing database queries to support large-scale traffic.
- Designed and customized WordPress themes using Elementor and Divi, providing clients with fully responsive, visually appealing, and SEO-optimized websites.
- Integrated third-party APIs such as payment gateways, social logins, and analytics tools, automating key business processes and reducing manual workload by 60%.

The Outsourced Doers Software Engineer

June 2019 - June 2022

- Developed a custom CRM system, automating lead tracking and client communication, which led to a 25% increase in sales conversions. Designed an intuitive admin panel that improved data visibility and user efficiency.
- Built and optimized a dynamic admin dashboard, allowing real-time data visualization and analytics. The dashboard improved reporting efficiency by 40%, enabling better decision-making for the sales team.
- Implemented performance optimization techniques, reducing website page load times by 2.5 seconds. This significantly improved SEO rankings and increased mobile user retention by 20%.
- Designed custom PHP-based WordPress templates, allowing for greater flexibility and easy content updates without requiring developer intervention. This streamlined content management for non-technical users.

EDUCATION

Bachelor of Science in Computer Science

June 2018 - June 2022
